Portsmouth Trio Home After Enjoying 5,000 Mile Trip; "Oasis" Also Enjoyed

After covering more than 5,000 miles on their trip through the Southwest and in Mexico, 1,000 of which was made by motor through New Mexico, Karl Zocher, R. E. Lewis and Will P. Mingo arrived home Monday. During their visits to Juarez they made their headquarters in El Paso, Texas, which is developing into one of the real cities of the Southwest.

After reaching Raton, N. M., where they were joined by Edward Klimov, a clothing merchant of that city and the motor trip to El Paso was started. It required three days to get to El Paso, the trip being made by way of Maxwell, Springer, Wagon Mound, Las Vegas, Santa Fe, Albuquerque, Socorro, San Marcial, Elephant Butte Dam, San Antonio, Las Cruces and El Paso. Returning the trip was made through Alamogordo, Hondo, Tularosa, Corrales, Vaughn, Santa Rosa, Las Vegas and Raton. The distance this way being 100 miles shorter than the other route. The trip going was made over the famous and picturesque Santa Fe Trail and returning the Dark Trail was used. Both being filled with lofty mountains over which automobiles must be driven with extreme care. On a number of the sharp turns the driver, if he has a car with only a moderate wheel base, is compelled to back it and then straighten it up before he can proceed to the next curve. These turns are very hazardous and the driver must have his car under complete control as the slightest mistake would cause it to plunge down a mountain side some 2,000 feet. After the mountainous country has been

safely negotiated the occupants of the car breathe easier, yet much easier and with a greater degree of regularity. Then the row trails begin to loom up. Miles and miles of these roads skirt New Mexico, where concrete and brick apparently are unheard of. From San Antonio to Cutler, New Mexico, the distance is 18 miles and the Portsmouth party during this time did not pass a single machine, did not see a single person, no cattle, no swine, in fact not the slightest sign of habitation. The trip was made through the sandhills of that section and it was not negotiated too quickly as a stiff wind prevailed and the motorists were kept busy getting out of the path of the swirls of sand that would envelope them.

After Las Cruces is reached there is a veritable boulevard road into El Paso and the driver may go as fast as his conscience dictates. There is no speed limit in New Mexico, Texas or Mexico, just get to your objective as fast as the roads will permit and this will be none too fast especially for buckeyes, who are accustomed to "kicking their machines along" and get somewhere on scheduled time. Enroute to El Paso the local party spent the night in Santa Fe, "The City Different" as they say down there and rightfully so as it is unquestionably the quaintest city in the United States with its narrow streets, lofty and ancient buildings, its immense Plaza and its streets cluttered with a heterogeneous mass of humanity. Indians and Mexicans seem to predominate and when you bump into an American you feel like

welcoming up to him and say, "hello, partner, how goes it?" Or as they say down there "Comma Esta, Migo?"

The motorists had the pleasure of being shown through the San Miguel church in Santa Fe, it being the oldest church in the United States. Father Kelly is in charge of it and shows all tourists through it and explains how it was built, with its six foot walls and how it is kept up. A fee of 25 cents is charged to visit the church, which is used every day by boys attending the St. Michael's college, which is operated in connection with the historical church.

In El Paso the local people met Joe Reimer and Simon Katosky, who were formerly engaged in business here. They operate the Fidelity Savings and Loan Company there and are doing well.

In Juarez the lid is off, and apparently off to stay. The town has a population of about 4,000 and has 10 licensed saloons and three warehouses. The wet goods are received from London after having been shipped there from the United States. The town is overrun with culture, good, bad and indifferent. The saloons, cafes and dance halls are open all day Sunday and nearly a big prize fight is being held or a bull fight is on. A calendar is not needed in Juarez. Scarcely any one knows the day of the month or what time it is. They are too busy corraling American dollars. On Saturday it is estimated that the population of Juarez has been increased to 20,000 and 20,000 on Sunday. Most of the visitors are El Pasoans.

You must have a passport to cross the International bridge, but the local party had no use for them. After having their pictures taken and placed on their passports the Mexican authorities evidently wished to be spared the humiliation of looking a quartette of regular fellows in the face so they were not even stamped. If you say you are a tourist you pay \$2.25 for a ten day passport. If you say you live in El Paso you get a yearly passport for 25 cents.

The saloon keepers pay the expenses of keeping up Juarez. Every time the treasury gets wobbly at the knees they send out a committee to shake down the bar owners.

They are assessed according to the number of their employees, the amount of their stock and their floor space. And incidentally a certain portion of the help must be Mexicans even if they are "hophheads" and must have their bluff. When a Fiesta is on in Juarez the saloonkeepers pay all the expenses. A Fiesta is a big celebration much like a Kora Karnival with all the trimmings.

Now and then the American officers on the bridge will insist that all cars be searched to see if any goods are being smuggled across the border or if booze is being transported. Very few automobiles are caught as very few carry anything across. It is too easy

This Letter Will Tell You How

"I suffered terribly every month, and was always tired and nervous, and had indigestion, and often could not do a thing. I was this way about two years, and had to stay home with my mother. I tried several medicines, then I found a book of yours, and mamma told me to try the Compound. So I got a bottle of Lydia E. Pinkham's Vegetable Compound, and it certainly worked wonders with me. I have taken six bottles of it, and am still taking it when I feel the need of it. I am working now, and to a number of working girls, who are taking it. I am glad to say that it did a lot for me and for my mother, and we only wish we had taken it a long time before."—Rose Schoeff, 4876 Annunciation St., New Orleans, La.

This letter is but one of a great number received every year from women, young and old, and from almost every walk of life. These letters testify to the merit of Lydia E. Pinkham's Vegetable Compound.

Miss Schoeff works for her living, but on account of sickness was obliged to stay at home for two years. During this period she suffered terribly at times. She tried several medicines without finding relief. Finally she tried Lydia E. Pinkham's Vegetable Compound, and in this letter tells what it did for her.

The Vegetable Compound contains no narcotics or harmful drugs, and can be taken in safety by any woman. Your livelihood may depend on your health. So try

A WIFE IN THE MAKING

BY PHYLLIS PHILLIPS

CHERRY HEARS THE GOSSIP

After a long talk with Jane, Cherry felt that young lady considerably cheered by her advice, as well as confident in the future. In fact she was radiant with smiles at the end of an hour.

Descending to the living room, Cherry found that several callers had dropped in in her absence. Miss Ludo-Ford, the friend, was one. She was sitting cross-legged in a deep conversation with Mrs. Randall, but at sight of Cherry straightened up immediately and smiled her false smile.

Cherry nodded coldly and passed on to where two brisk waitresses were gayly chatting.

"Cherry dear, Nellie Arthur told me that she'd a letter from your sweet heart of hers in Chicago this morning and he told her that he's seen your Ned with that Miss Bates. They were going into some theater together," called Miss Ludo-Ford.

Although Cherry felt every drop of blood rushing from her heart, she controlled herself with a supreme effort, looking full well just how her attitude would not upon such a woman, as well as upon her own mother-in-law, whose sharp eyes were watching her carefully from her corner of the room.

In an even voice Cherry answered, smiling as she did so.

"Why, yes, Miss Ludo, I had a letter from Ned only this morning telling me of having run into Arline while in Chicago. She was up there for a day or two visiting. Poor Arline, she does work so hard here, that I guess

It's a real treat for her to run away and play a while. And you sure can do that in my home city." With this she dropped into a seat beside the two other guests and began talking to them eagerly.

Miss Ludo was dumfounded at this casual reception of her great news. She had felt so sure that it would cause a sensation in the Randall midst, and instead, Cherry only smiled!

Cherry felt that her mother-in-law knew she had invented the contents of Ned's letter for obvious reasons. But she, herself, was in such a white heat of anger and despair at the news of Ned's having been seen with Arline that she didn't care whether she was branded a liar or not. Her one thought was how best to get away from the whole rowdiness of them and by herself where she could think out the best course for her to pursue.

To leave immediately would arouse suspicion. They would think she was with jealousy, despite her calm assurance of knowing just what her husband was up to. No, that should never be said of her by any one in Westburg. She would outwit them all. She would stay and chat, then think things out carefully afterwards.

"And how are all the disgruntled wives today?" went on Miss Ludo smilingly as she walked over to and sat down beside the (ordured) girl. This was too much for Cherry to stand. It was adding insult to injury with a vengeance. She found herself hating this woman inside her, desperately.

"Why, I can't really explain to you just how they are dear Miss Ludo, you never having been a wife as yet, would not fully understand. Maybe some other time you will have an opportunity."

Every Shape Is Good In Hats!

By MARIAN HALE

NEW YORK, Sept. 20. One thing coming along with the coming season's hats is their shape.

Every shape is good.

Never has the hat line been so extensive.

Wherever you see one of those exaggerated extreme French shapes you are sure to glimpse, near by, a straight, lined sailor shape or a big simple-lined ingenuite effect.

A French hat, which bears all the simple lines of youth and which is not extreme, is a Lewis model of black velvet trimmed in black, and ribbon. Two saucy cockades on each side are the only ornaments, but the hat is due to the last letter of the word.

A Franklin Simon import of extreme simplicity and beauty of line is of a child velvet with a broad brim turned up at the front. The brim is shorter in the back and the only ornament is a simple dragging bow.

Among the extreme hats soon is one huge Napoleonic affair with glycerine netting tips, flaming themselves at each point of the hat.

The brilliant lined pheasant is still adding color this year and one black velvet turban, slashed way down over the crown, has a sweep of pheasant feathers which fall over the shoulder in front.

The nature-scape Gainsborough is also seen with its turned up brim.

Held For Grand Jury Action

The preliminary hearing of Dave Wright, 48 years, of 1105 Mill street, in Municipal court Monday afternoon, resulted in the accused being held by Judge Sprague for grand jury action on a charge of receiving stolen goods, and his son, Clarence Wright, 22, and Clarence Meadows, 38, were held to the grand jury under \$500 bond on their plea of guilty to stealing the property, which consisted principally of men and women's wearing apparel taken from the dispensary on Gay street, which was entered early Friday morning. The elder Wright was released on his own recognizance, while his son and Meadows were committed to jail in default of bond.

Admit Disorderly Conduct Charge

John Myers, Frank Holt, Phillip Herder and John "Red" Clifford admitted guilt of disorderly conduct charges made in connection with a row staged at the home of John Davis, 1205 Waller street, Sunday night, when they appeared in Municipal court Monday, and Judge Sprague imposed a fine of \$5 and costs against each and dismissed John Foley and Dave Bennett.

During the hearing, Davis, who was

ordered held pending a further investigation, claimed that Clifford came to his home while a music party was in progress and started a rough house. A lively time followed in which Clifford was badly used up and when he appeared in court sported a badly discolored optic and bruised lips. Several of those at the party admitted they were much the worse off from booze and their memory was bad as to what really did occur.

Tshon appeared in Common Pleas court Monday afternoon he pleaded guilty to an indictment brought against him by the recent grand jury charging embezzlement of \$1400 which came into his hands as treasurer of the local Brotherhood of Railway Carmen's organization and Judge Thomas sentenced him to the Mansfield Reformatory. SISTER WAS CRUSHED BY AUTO

Mrs. J. T. Grady of 1410 Offener street has returned from West Price Hill, near Cincinnati, where she was killed by the death of her sister, Mrs. Mary Catherine Holman, who was killed instantly Thursday night about 10:30 o'clock in an auto accident at Five Points, West Price Hill. The Holman machine was coming down a hill road when lights from another machine blinded the driver, Mr. Holman, and caused him to drive too far to one side of the road. The wheels on one side went down the slight embankment of about a foot causing the car to turn over. Mrs. Holman was caught under the machine and badly bruised. Her nose was broken, jaw broken, and from the waist up was crushed by the heavy machine. Mr. Holman and another couple in the car escaped with slight injuries.

Mrs. Holman was formerly Miss Mary Catherine Duncan of this city. She was born on Third street, opposite old Christ church. She was married in this city, leaving Portsmouth after her marriage, about 20 years ago.

Besides the husband, William Holman, two children, Wells, of Cincinnati, and Mrs. Eugene Bumpo of Cleveland survive.

REBEKAHS CELEBRATE TONIGHT

The daughters of Rebekah will celebrate the seventieth anniversary of the founding of the order, tonight, when a splendid program will be given in the hall, followed by refreshments. Several short talks on the order will be made. Mrs. Lillian Gallick is chairman of the committee on arrangements. Members and their families are invited to attend.

When a broken bottle of moonshine and a bottle not broken were found in the car the machine was ordered taken to Foster's garage at Waverly instead of back to Portsmouth where garage men from Portsmouth went after it. According to Waverly authorities, one of the three men released claimed to be from West Virginia en route to Chillicothe. On being released Sunday evening he left for Chillicothe. Officers claim that the stranger was taking a suitcase of liquor to Chillicothe.

Clark was taken first before a justice to answer to a charge of driving a car while under the influence of liquor. He was dismissed by the Justice of the Peace and the arresting officer then placed a charge of transporting liquor against him and ordered the car held for bail.

This morning Clark went to Waverly morning and appeared before Mayor James Logan to answer to the charge of transporting liquor. He was dismissed by his Honor, after which Clark secured the release of his machine and had it brought to a local garage.

All three of the men from Portsmouth were injured. Clark was out about the face. The stranger, who soon shook the dust from his feet, was the only one not injured.

SCIOTOVILLE AND WHEELERSBURG

Mrs. Russ and Mrs. Jimmy Jenkins received the little guests on the veranda, and after a pleasant exchange of greetings a delightful reception was served around the large table in the dining room parlor. A large birthday cake and pink candles adorned the table with dairy rose buds to mark the place of each guest. Those who enjoyed the afternoon were Virginia Willis, Natalie Buchanan, Garnet Ketter, Ruth Stewart, Geneva Castrop, Thelma Oakes, Imogene Jenkins, Betty De Crow, Lillian Wiseman, Harriett Walden, Florence Nagel, Louise Weerts, Phyllis Gretchen, and Rudyard Russ, and Miss Rosalind Clark, and Eugene Warnock of Portsmouth. Legal Action Follows Wreck Of Automobile

Sunday evening at Waverly, George Clark, who gave his address as 1551 Eleventh street, Portsmouth, and three men with him were taken in charge by Waverly officers shortly after Clark's big touring car left the road and was wrecked near Trimble bridge, on the towpath road, about two miles below Waverly. The three men with Clark were released after it was learned who owned the car.

When a broken bottle of moonshine and a bottle not broken were found in the car the machine was ordered taken to Foster's garage at Waverly instead of back to Portsmouth where garage men from Portsmouth went after it. According to Waverly authorities, one of the three men released claimed to be from West Virginia en route to Chillicothe. On being released Sunday evening he left for Chillicothe. What Your Curtains Mean To You And Your Neighbor

To the outside world, to your neighbors who pass your house time and again but who do not know you, your curtains are the symbol of your personality.

To you and your family those same curtains mean something more intimate, more personal, they are the veil through which you view the outside world; they keep out all that is strange and unwelcome; they let in the vista and the sunshine; they give the interior of your home its sense of cosiness and security.

During Dress Up Week we wish to help you select the best possible curtains for your expenditure, and to suggest new and attractive ways of hanging them in your home.

A Casement Treatment With Personality

The only objections to a casement cloth—their opacity and lack of personality. Casement lace provides a casement treatment with these objections eliminated. Be sure to see this new window fabric.

Tuscan Net

The demand for a virile, a masculine window covering has lead to the development of a new fabric known as Tuscan Net because of its Italian spirit. It is a fabric you will want to see for it has limitless uses.

Sampler Lace

A new and charming fabric created to meet the need for a window covering suited to the rooms of the Colonial type of homes. It has a delightful homespun quality. It is also much used for dresser scarfs and lamp shades.

Sectional Craft-Lace

To meet the demand for a lace to fit windows of varying widths, to be applied flat against the pane, we have selected a splendid assortment of Quaker Sectional Panel Lace. This is made so that the heaviest part of the design comes at the bottom—making an artistic, well-balanced curtain, as well as a practical one wherein the transparency comes in the place where the eye wants it.

MOST PITIFUL SIGHT IN LIFE

Is a man or woman who has no "will-power" as a result of nerve force exhaustion

All the physical suffering which may be caused by nervous irritability, headache, backache, indigestion, heart palpitation, etc., is a result of nerve force exhaustion. There is nothing as compared with the awful effects upon the mind and "will power."

The most pitiful sight in life is a man or woman who has no "will-power" as a result of nerve force exhaustion. The memory also fails, the judgment is bad and everything therefore seems to go wrong.

In such cases, do not take more stimulating medicines, for narcotic drugs (which only further injure your delicate nervous system) but what you need is something to put more nerve force into your nerves and more iron into your blood to help make new nerve force with which to feed your starving nerves. This is most effectively accomplished by the free use of Nuxated Iron. This valuable product contains the principal chemical constituent of active living nerve force in a form which most resembles that in the brain and nerve cells of man. It also contains strength giving organic iron for the blood and may therefore be said to be both a blood and a nerve tonic. Over 1,000,000 people are using it annually. Satisfactory results are guaranteed to every purchaser or the manufacturer will refund your money. Beware of substitutes. Look for the word "Nuxated" on every package. Sold by all druggists.

THAT the miners almost without exception consider they were treated unfairly by interference of the government during the last strike, when an increase of 27 percent in wages was granted, compared to their demand for a 60 percent advance.

National Convention

On September 20, miner delegates will assemble here from every section of the United States and parts of Canada.

Already they have made known their determination to fight to the last ditch for preservation of present wage scales and an increase above the basic \$7.50 a day rate.

According to President John L. Lewis, never was there a period in the coal industry when miners were so "entirely wrought up over the wage controversy."

Some of the proposals call for enactment by the convention of demands on coal operators for wage increases of 70 percent.

By contrast, certain operators in various parts of the country have posted notices that their mines, after resuming operation, will run on reduced wage scales.

Some operators have even sent delegations to the miners' headquarters here, entreating President Lewis to sanction a pay cut.

To these Lewis has replied "that the miners will never consent to a lower scale and will fight to the last ditch any attempt to bring about such a reduction."

Resting on Dynamite

In the opinion of one high officer of the mine workers' organization, the probability of a national coal strike is very imminent. He says:

"The entire situation is resting on a load of dynamite. Not very much is needed to set off the charge."

Some other resolutions received in advance of arrival of the delegates who formulated them, call for:

Government interference with the import of Mexican coal which is competing with the coal industry by the stimulation of a high protective tariff.

Nationalization of all coal mines in the United States as a means of preventing such disorders which recently occurred in West Virginia.

Steps to bring about the amalgamation of transport workers, railroad employees, and miners into a national body, each to cooperate with the others in event of strike.

Release of Eugene Debs from prison. Absolute disarmament.

Recognition of Soviet Russia.

A 50-hour day.

A five-day working week.

Basic Awards

In 1919, following the last biennial convention at Cleveland, demands were made on the coal operators for basic awards in the central competitive field which called for:

A 60 percent wage increase.

A six-hour day.

A five-day week.

The central competitive field includes Western Pennsylvania, Ohio, Illinois and Indiana.

Whatever award is agreed upon, by the joint state committee of 64 operators and miners, is used as the basis for establishing working and wage "big issues," says President Lewis.

"There can be no reduction. Further than this I cannot consent."

In event of strike, the union could call out every miner, thereby completely tying up not only the bituminous, but also anthracite production.

Both the hard and soft coal workers will cooperate with each other so that each can gain their class.

Wilson insists that he explicitly dis-

Seek to Have Press In

Senator Harrison declares that his fight for the admission of the press is not a partisan affair and that Sena-

tor Doral as well as other leading Republicans are just as much interested in seeing the newspapermen admitted

as are the Democrats. It was realized of course that the rules of the conference will be made by all the powers

when assembled, but on the other hand the aim of the Senators behind the Harrison resolution is to have the

American delegation at least champion the cause of open publicity. Then if

the conference is a failure, it will not be said that the United States dele-

gation was to be blamed for failing to have the conference in the open so that public opinion could prevent repug-

nant positions as blocked agree-

ment.

Seek to Bar Correspondents

The whole trouble about publicity in connection with every international conference is that when the press is

excluded, the blame for failure or the responsibility for obstructive tactics

is never discolored. The allies are still being offered for various agreements

reached at the Versailles conference. Thus far there is every indication that

the Washington conference will be managed on exactly the same lines as

the peace conference, that is the press will be excluded and the officials

of each government will tell the press afterwards what they ought to print

in order to assist each nation's inter-

est. The European governments have always had a hold on their press and

have been able to inspire the writing of editorials as well as reports so as

to influence public opinion. The American delegation at Paris never

participated in such tactics and was often at a disadvantage for that reason

because the other delegations permitted secrets of the conference to leak out through their reporters so

that more prominence was given to what the newspapers of other coun-

tries were saying than in the American viewpoint. Domestic politics was

an important factor. One of the pre-

sumers insisted that if a certain thing was made public, he would lose his

political power at home. In the inter-

est of that individual's political fortunes, the other nations agreed to

keep mum. There is nothing to prevent the same thing from happening

at Washington in November, nor is there anything to prevent the head of

a delegation from announcing in secret that the public opinion of his country

would not permit his agreeing to certain propositions which if exposed to

view might be fully accepted by the people of his country. "Public opinion"

is a much abused word in international conferences and it usually has a great deal to do with domestic

policies.

Senator Harrison intends that there shall be no undue influence exerted

over the press during the conference and he has incorporated a paragraph

in his resolution calling upon the American delegation to see to it that

censorship of every kind, direct or indirect is tabooed.

Seven Year Old Child On Way To School Meets Death In Sudden Form

One of the most regrettable fatal accidents in months occurred this morning about eight o'clock, when a large touring car driven by F. G. Crumley, of 1027 Kinney's Lane, struck and knocked down Freda Barker, 7 years old, the child sustaining a fractured skull which resulted in death a few minutes later. The fatal accident occurred in front of the Garfield school on Gallia street the child being on her way to school at that building.

The fracture of the skull at the base of the brain resulted when her head hit the paved street. The left front fender or left end of the bumper hit the child and knocked her down the car wheels not touching the little body that was thrown a little to one side.

The girl who made her home with her grand parents, Mr. and Mrs. J. V. Harris, of 2311 Gallia street, left home shortly before 8 o'clock and had walked west on the south side of Gallia as there are no walks on the north side of the street east of the school and over Damarin Hill. The pupils have been instructed to cross the street in front of the school instead of crossing at any point they might select. This morning the little girl followed instructions and waited on the north side of the street till she was in front of the school before she attempted to cross.

She started to dash across the street and was about in the middle of the street when knocked down. Ac-

cording to Mr. Crumley he noticed the girl as soon as she left the curb and swerved to the left in an attempt to get by her but she kept going ahead and he had to swerve back to the right. The child had almost gotten in the clear when struck by the left front part of the car.

The little girl fell in the space between the two car tracks.

Mr. Crumley stopped as quickly as possible, jumping out of his machine before it had fully stopped to assist back to the child. He picked her up and put her in the machine and drove to a hospital in the hopes that there would be some chance of sustaining life.

The child had passed beyond medical aid when the hospital was reached. Although her little heart was still beating, the injury was of such a serious nature that all hopes of staying the hand of death were gone. Within a few minutes after reaching the hospital the spark of life flickered out, the small body being unable to stand the terrible shock of the serious injury to the head.

According to James Clark, watchman employed by the firm, cutting down part of Damarin Hill and filling in on the south side of Gallia

pike the little girl waited on the curb several seconds and looked for machines or wagons before she started to run across. Mr. Clark says that the driver of the machine turned to the north side of the street in an effort to dodge the child but had to turn back again as the child traveled from the curb with much speed in an attempt to get across the pike as quickly as possible. The watchman claims that Crumley stopped his machine within about forty feet of where the child was knocked down and got out of his car before it had come to a dead stop.

Later Officer Stanley Schroeder and Mr. Crumley went to the scene of the accident and went over the ground carefully where the accident occurred. Mr. Crumley was then asked to appear in Municipal Court at one o'clock this afternoon. The names of a number of workmen and school children were secured and asked to

report as witnesses at the inquest.

Frances Joyce, a playmate of the neighborhood, and other pupils of the school were with the little girl or within a few feet of the scene of the accident and were eye witnesses to the almost instant death of their little friend.

Clyde Bourne who lives next door to the Harris home where the little girl stayed, was riding his bicycle to school and was about 100 feet east of the scene of the accident when he noticed the machine stop and the girl lying in the street. On learning who it was he went to the Harris home along with Charles Carter, both of East Portsmouth and informed the grandparents of what had happened. The grandparents learned the worst when they telephoned and were informed the little girl died.

Freda Barker was 7 years of age July 31 last. She had made her home with her grandparents in this city for the last two years.

Last term she also attended Garfield school. This year she was in the second grade in the room taught by Miss Mabel Hollenbeck.

She was the only child of H. C. and Lorraine Barker. The father is in Rochester, Wyoming and the mother is in Peoria, Ill.

Both were sent messages this morning and the mother is expected to arrive tonight or tomorrow morning. The girl was also the only grandchild of Mr. and Mrs. Harris. Mr. Barker is a son of Mrs. Harris.

For sometime the girl had attended Sunday School at the Terminal M. E. church. She was a bright and lovable child and will be greatly missed in the neighborhood and by her many school friends.

Mr. Crumley, the driver of the machine that struck the girl is an expert on high grade steel. His wife and Charles Moreland also of the Whitaker-Glessner plant were also in the machine at the time.

Mrs. W. E. D. Stokes Gets Divorce

NEW YORK, Sept. 20.—Mrs. Helen Stokes was exonerated today of the charges made by W. E. D. Stokes, millionaire railroad man, in his suit for divorce. Justice Finch, of the Supreme Court, dismissed the complaint of the husband. Mrs. Stokes also was sustained in her complaint in an action for a separation, brought as a counter claim to the action of Mr. Stokes, and based on allegations of abandonment and cruelty.

Accordingly, Mrs. Stokes will receive a decree of separation with an allowance and will have the custody of her two children.

Mr. Stokes presented his position for a divorce upon Mrs. Stokes' alleged conduct with three respondents, George A. Schroeder, Jr., Nat C. Phipps, cousin of Mrs. Stokes' mother, and Edgar T. Wallace, now in the oil business in San Francisco, California. It was upon the charges naming Mr. Wallace that Mr. Stokes depend-

ed principally to establish a case, and he brought forth many witnesses to testify that they had seen Mrs. Stokes in the company of Mr. Wallace at his New York apartment.

Justice Finch not only expressed his incredulity upon the open basis which it was contended by Mr. Stokes his wife carried on with Mr. Wallace, but the Court was not satisfied altogether with the accuracy of the testimony in most instances.

Justice Finch held that Mrs. Stokes exaggerated in her charges of cruelty, and required her for her action.

For five or six weeks the trial of the Stokes case dragged along and about the time it was to be finished Mr. Stokes became ill, so that he never went to the witness stand.

Justice Finch reviewed the marital relations of plaintiff and defendant, mentioning that they were married in 1911 when Mr. Stokes was 58 years old and Mrs. Stokes 24.

The Justice took up the alleged in-

Attorney Scores Big Victory
Attorney Henry T. Bannion, of this city, recently scored a big legal victory when Judge Cochran in the United States court at Corning sustained a demurrer to the petition in the big damage case of The Robert Graves Contracting company against The C. & O. Northern Railway company which knocked the plaintiff entirely out of court and practically ended the litigation.

This suit was originally brought in the local Common Pleas court in which the plaintiff company sought to recover more than a quarter million dollars as extras and as damages in connection with its contract for building the new railroad through Scioto and Pike counties. The case went to trial here but the hearing had not progressed far until the plaintiff's attorneys threw up their hands and dismissed the action without prejudice after Judge Thomas ruled out much of their evidence.

Hann Denies Guilt
Robert Hann, North End youth, indicted jointly with John Gaddis and Harrison Clifford for alleged stealing wages valued at \$2 from C. W. Barlowe last July, pleaded not guilty when arraigned in Common Pleas court and Judge Thomas released him on his own recognizance. Gaddis and Clifford also have denied guilt and are out on their own recognizance pending trial.

Staley Changed Plea
When Roy D. Staley, 30 years old, of Roanoke, Va., appeared in Common Pleas court Tuesday he changed his plea from not guilty to guilty of gun toting and Judge Thomas imposed a fine of \$100, half of which was suspended pending good behavior.

Staley, who is a machinist, employed in the N. & W. shops at Roanoke, told the court he stopped off in this city to visit friends early in August while enroute home from a western trip and that he became involved in an altercation with a man who attempted to cut him with a knife. He stated that he went to his hotel and secured his revolver to protect himself and was arrested with the weapon in his pocket. Staley expects relatives to come to his aid and pay the fine. He was represented by Attorney B. F. Kimble.

BIG STEEL PLANT STARTS UP

With three open hearth furnaces warming up and the two high jobbing mills and sheet mills in operation, coupled with the resumption of the blooming and bar mills which are scheduled to start Wednesday morning, things are "looking up" at the big plant of the Weisacker-Glessner Steel Company, and the employees of the big concern as well as the citizens in general, are very optimistic.

The open hearth fires were lighted Monday, while the sheet mills and two high jobbing mills resumed operations Tuesday morning at 8:00 o'clock. Scenes around the big plant, while not normal as yet, are expected to rapidly shape themselves toward the goal to which the industrial world has been anxiously looking and longing for some time.

It was stated at the office of the plant that the employment office is still open for former employees who desire to sign up for work.

Arrest Made In Oak Hill Dynamite Case

OAK HILL, Sept. 20—After a diligent search in which a pair of shoes played a prominent part, Sheriff Davis arrested Tom Lee, the son of Mr. and Mrs. Jack Lee of East Oak Hill and placed him in jail at Jackson Saturday night, on suspicion that he knows something about the attempt to wreck Mayor L. N. Evans' blacksmith shop. Young Lee was recently arrested on a charge of manufacturing moonshine but was later released because of lack of evidence.

A pair of shoes belonging to him fit the tracks found under the building. Later developments tend to show that he purchased dynamite and used from one of the brick plants some time during the day Friday. A great many seem to be of the opinion that Lee is but a tool for some one "higher up."

COUPLE GET INTO WRONG COURT

The domestic troubles of Howard Allen and wife, Othella, were aired in Municipal Court Monday afternoon but after hearing both sides Judge Sprague told the couple that the Common Pleas court was the proper place for them to seek relief. The wife claimed Allen hit her over the eye with his fist during an altercation Friday and he not only denied her statement but declared she attacked him with a knife.

Employers Borrow From Servants

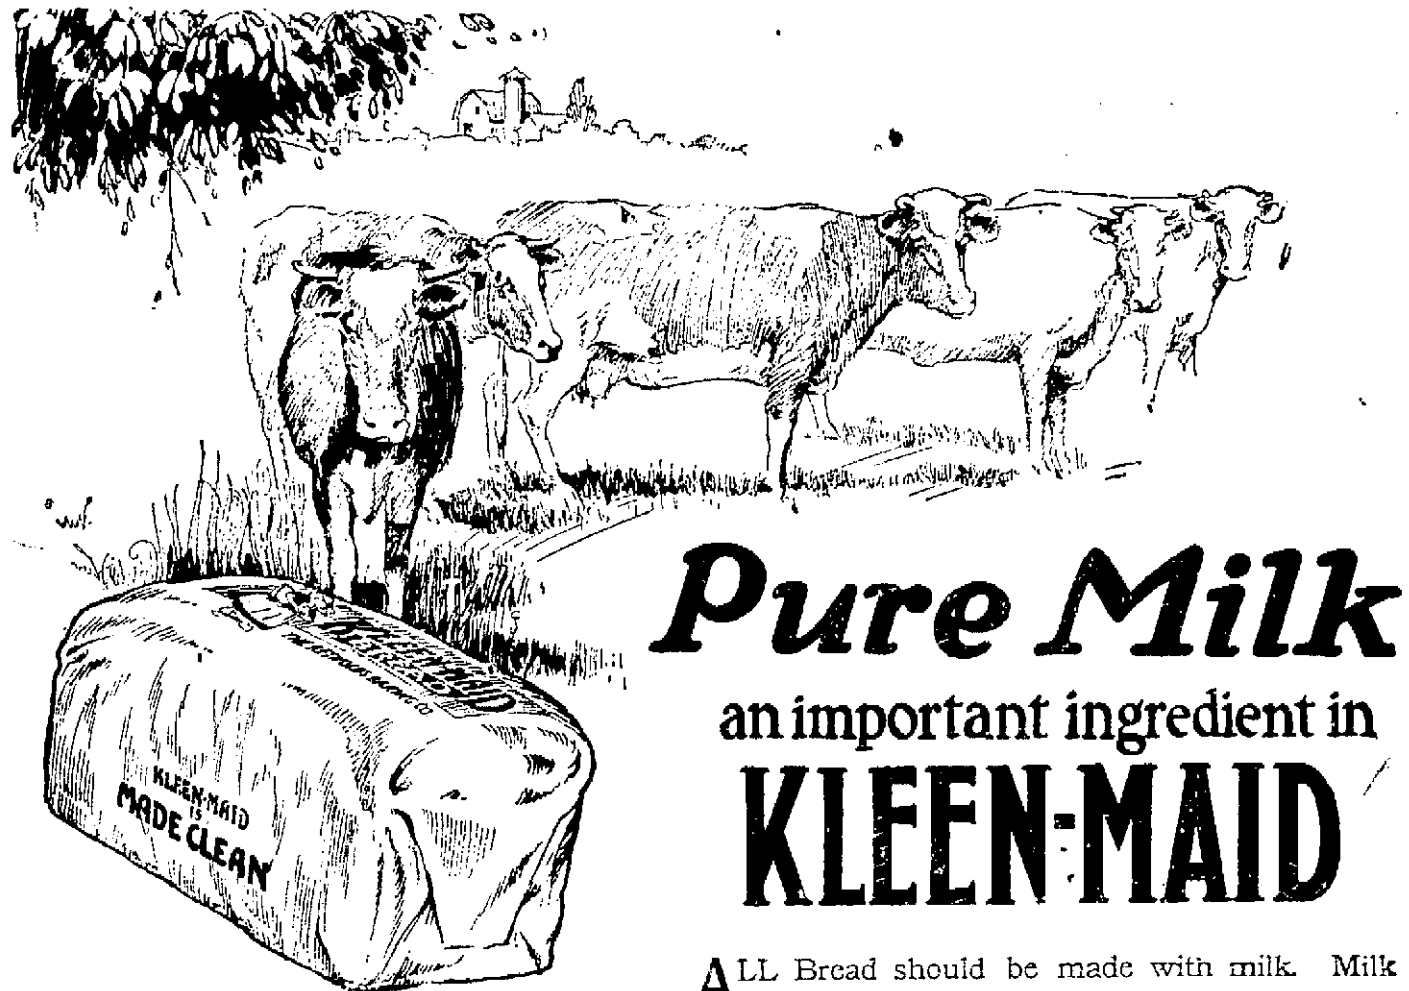

BUENOS AIRES—The justices of peace of the Argentine capital have appealed to Congress to enact laws protecting servants from employers who neglect to pay them or who borrow from their coats to pay for the elaborate dinners they give in order to maintain their social positions.

The justices allege that many who live surrounded by servants in uniform and who give great dinners and whose names are prominent in the social register are compelled to resort to these methods in order to keep up their appearance as social leaders.

The justices attribute this habit of the social climber of running in debt to "a depressing show of folly and pretense, an overpowering desire to dress well and to prodigality and too much indulgence in intoxicating drinks."

Daily Thought

The true overcoming is not in shopping outward things to suit our will, but in living out our life patiently, trustfully, and kindly, through whatever the outward things may be.

Pure Milk

an important ingredient in

KLEEN-MAID

ALL Bread should be made with milk. Milk gives it a flavor that nothing else can contribute. Also it gives vital nourishment that we should expect in our bread.

Milk is one of our chief supplies of **Vitamines**. **Vitamines** are tiny atoms that even the strongest microscope has failed to locate. But we know them by their results. They are mighty workers for good.

Vitamines add something to every other form of nutrition. Without them tissue is not built or repaired properly, and there is little resistance to disease. On the other hand, ample vitaminenourishment means joyous health and immunity.

Other foods rich in **Vitamines** are fresh fruits and vegetables, butter and yeast. "KLEEN-MAID" Bread carries a dependable supply of them, because every whit of the nourishment contributed by its choice, pure ingredients is conserved for the well-being of the user, through the scientific safeguards of the "KLEEN-MAID" process. Nothing else in the baking industry equals it. It represents the same advancement as the most up-to-date airplane or automobile.

GOV. DAVIS CALLED BEFORE GRAND JURY

NEWARK, O., Sept. 20.—Governor Harry Davis will be called before the grand jury today on a charge of bribery and gambling. The governor is to appear Wednesday afternoon at one o'clock.

PLANS CAME BACK MYSTERIOUSLY

WAVERLY, Sept. 20.—There is a mystery in the Pike county engineer's office. Before William S. Gehres, the incumbent, took office, the state had paid his predecessor hundreds of dollars to prepare plans for the Pike county road. The plans, however, were never found. The state highway department said that they had been sent to the county engineer. The county engineer said he had mailed them back to the highway department. Acting on instructions from Columbus Mr. Gehres was preparing a new set of drawings. On Saturday he locked his office and went home to dinner. While away, some one crawled in over the door and deposited the original plans on his desk.

His many Lakeland friends will wish him success in the practice of his profession here."

\$750,000 Yard For Her Cat

NEW YORK, September 20.—A woman who owns a yard facing 50 feet on Fifth Avenue at 234th street in the center of the city's most fashionable shopping district, refuses to sell it because her cat "has to have a place to play in." The property is worth about \$750,000, according to real estate men.

The dollars paid on it each year in taxes would, if stacked dollar on dollar, make a hurdle not to be shivered at by anything short of the cow who jumped over the moon. The cat is "just one of these very everyday walk-in-round cats." It was never known to take a prize at a cat show. Other wealthy people have given strange reasons for refusing to sell business district property which was eagerly sought by many buyers. Some time ago a man owned a building in Broadway just below Times Square wanted contract stipulations that none of the prospective buyers would lease it to certain businesses. His list began with aviary and went on down the alphabet to zytophone dealers, skipping a few lines of business that none could take the place.

Just above the Times Square section of Broadway an aged property owner had a vacant five-story building that an automobile sales house wanted to lease. The papers were drawn up, and when the interested parties had gathered to sign it, the automobile representative remarked that his concern was going to put "a nice electric sign on the roof." The owner laid down his pen and said no electric signs were going on top of his building. The deal was not closed and the building remained empty for six years when the owner died.

He was said to have admitted participating in sixty bombings here in the last year. Most of these were said to have resulted from labor trouble and police are now hunting a man who they declared was the brains of the band.

There are 173 public and 50 private schools in Hawaii.

Held On Several Charges

CINCINNATI, O., September 20.—Harry W. Johnson, 37, Akron, under arrest in this city on a charge of bigamy, when arraigned in Municipal court today had nothing to say and was held to the grand jury under \$5,000 bond. He was arrested August 25, on a warrant sworn out by Mrs. May Louise Nelson Johnson, who alleges that she was married to Johnson, then a resident at Atlanta, at Apoka, Fla., July 13, 1901. On October 20, 1917, the warrant charges, Johnson married Miss Mattie Fay McDowell in Cincinnati. A federal warrant charging Johnson with violation of the Mann White Slave Act was sworn out by the alleged third wife of Johnson, Mrs. Carrie F. Johnson, who charged that she married him in South Carolina several years ago.

Participating in the conference will be state and university entomologists, Director Taber and county agents from counties in which the corn borer infestation has been found.

GIANTS TRIMMED

PITTSBURGH, Sept. 20.—New York dropped its last game of the season here Monday by a score of 2 to 1, the game ending with a punt at the plate. Adams not only pitched well, but helped with his own game by tripping to left center in the sixth inning, scoring on Bigbee's sacrifice fly. The Pirates won the game in the seventh inning, with the help of a mis-play by Douglas. Cutshaw led off with a double to left center, reached third on Barbare's sacrifice, and scored when Douglas fished Grinn's roller and threw wild to the plate. New York scored its run in the first inning on Frisch's single, Cutshaw's error and a single by Young. In the ninth Kelly doubled with two-out and attempted to score on Menosky's single but was thrown out at the plate.

Detroit hit New York's three leading pitchers, Mays, Shawkey and Hoyt, for seven hits in the eighth inning. Mays was taken out after he forced a run in the next two and Detroit drove in five more of Shawkey and Hoyt on bunched hitting. The race in the horseshoe pitching tournament is keeping red-hot. With one more night to play, a single game separates the three leaders. The Iron Men, the Cleavers and the Campbell Avenue team running aip and took for the pennant. Next Friday night tells the tale. The Iron Men meet the Vulcans, the Cleavers and the Spring Street and the Campbell Avenue team meets the Steel Plant.

The dope sheet was badly upset last night when the Campbell Avenue team, leading the league, were thrashed by the Terminus Second, the strong Spring Streeters wiped up by the Vulcans, the York Parkers took four games from the Iron Men, and the Steel Plant beat three games to the Quality. The dope man had better go to bed, and pull the covers up over him.

Last night was also unique in another way; as not a single pair won five straight.

No high scores to speak of were made. Swickert was high with 76, Prediger made 60, and nothing else worth speaking of was made. Swickert was also high in the quality, throwing 21, Prediger and Massie made 18 each. Doll, Hall and Cook made 17 each. Higgins, Hughes, McNeil, Cross, J. Sparks and Osmey made 16 each, while N. Kitchen, Millson and Dougherty made 15 each.

On Courts 1 and 2, the Campbell Avenue got their worst thrashing so far, and at the hands of the Terminus Second. On Court 1, Terminals Adeworth and J. S. Cunningham won

of 21-10, 21-10, 21-8, 14-21 and 9-21. High man, Swickert, 76 points and 21 ringers.

On Courts 11 and 12, the Hilltop A. C. could only break even with the Pioneer First. On Court 10, Hilltopers Dempsey and Crawford won 3 out of 5 from W. Cradler and C. Rheinhardt for the scores of 21-11, 20-21, 21-14, 21-9 and 9-21. On Court 12, Pioneerers Hughes and Holist won 3 out of 5 from Brady and Seerest by the scores of 21-11, 21-10, 9-21, 7-21 and the rubber, 21-10. Crawford was the high man, making 47 points, but only 11 ringers, while Hughes made 34 ringers and 36 points. Dempsey made 22 ringers and 45 points, and Brady made 12 ringers and 40 points.

MUCH INTEREST BEING SHOWN IN THE TENNIS TOURNAMENTS

One of the best matches in the women's doubles tennis tournament will be staged this evening when Mollyn Gledhill and Charlotte Schaeffer play Mrs. H. Stedley and Miss Isabel Musser. The results of tonight's contest will play an important part in deciding the winner of the tournament. Defeat means elimination for the Stedley-Musser combination while a victory for them leaves four teams in the tourney with one defeat each.

Mrs. C. M. Donaldson and Margaret Armstrong were eliminated from the women's tennis tourney in doubles yesterday when they lost to Miss Edna Marling and Miss Lena Hauk at the Golf Club in two straight sets, 8-0, 6-3.

In the women's singles tourney, Nancy Grimes defeated Virginia Robinson, 6-3, 3-6, 6-1.

Only one match was played in the men's tournament. Hyland defeated Stanley in two sets, 6-1, 6-2. Tom E. Williams and William Bell postponed their match until today while Robert McNamee and Harry Doerr defaulted to Don Jordan and Albert Clausen, respectively.

Jim Breece has been obliged to withdraw from the tournament because of a weak ankle and he defaulted his match to Richard Taylor.

The schedule for the men today is as follows:

Donald Jordan vs. George Thomas, east court, York Park.

William Bell vs. Albert Clausen at Rose Ridge court.

N. R. Griffin vs. Charles Storch, Golf Club.

In the women's singles, Grace Hauk will meet Mildred Werner on the Selby court at four o'clock.

Stars Beat Jackson Nine

The Fresh Stars of Wheelersburg beat the Jackson team in that city last Sunday, 4 to 3, it being one of the best games played there this season. Shover, who was on the mound for the Stars was in fine form. Next Saturday the Stars will go to Oak Hill to play the crack team of that village.

Perry Defeated

Jack Perry was defeated in his 12-pound game in Canton last night with Johnny Karr, a very promising welterweight. It was their third meeting, the other two battles being draws.

They Need 'Em

The Phillies have just recalled six of their youngsters. Judging from their playing this season they should have called sixty-six. The Ph's are looking on having a first division team next season.

Lombards Defeated

The newly formed Ashland football eleven, which later on will show its wares here, opened the season in Iron-ton Sunday and beat the first Lombard eleven, 6 to 0. The game was staged in Beechwood park.

Pirates Win

The Pirates finally woke up and beat the Giants Monday but it is too late. It is almost a foregone conclusion that the Giants will win the flag and then fight it out with Cleveland or the Yankees.

Hard on Tableware. On a big liner about 3,000 pieces of glass and crockery are said to be broken on each voyage.

NOW INDIANS ARE IN FIRST PLACE

NEW YORK, Sept. 20. First place in the American League appears to be as difficult as a ground pig to hold. It has changed frequently in the last few days but today the Cleveland Indians occupy it, holding it by a scant two point margin over New York.

The world's champions, though idle yesterday, took possession of the crown berth when Detroit defeated New York in a game in which seven pitchers were used—four by the losers and three by the winners. The Tigers scored eight runs in the eighth inning. Pitcher Elmke was credited with the victory and the defeat was marked against Shawkey.

Three and a half games was the margin by which the New York Yankees topped Pittsburgh today, despite the leaders' defeat by the runners' up yesterday.

Twenty-five grammarian girls enthral themselves at the tacking dum-joged a hike around the boulevard yesterday afternoon. Miss Lucile of some note, is now a student at P. Warson, the instructor, championed them. They left the High School building at 2:45.

Football practice is being carried forward with much enthusiasm. The pupils, especially the fair members of the gentler sex seem to take great delight in watching the football boys.
